Re: Petition for Exemption (14 CFR § 111.215(a)) (Docket No. FAA-2022-0795)

Dear Ms. Locke:

Cobalt Air, LLC, Air Carrier Certificate Number 6CBA595M, (Cobalt) respectfully submits the following Letter of Intent pursuant to the Federal Aviation Administration's (FAA's) June 24, 2022 letter exempting certain members of the National Business Aviation Association (NBAA) from the Pilot Records Database (PRD) interim reporting deadline scheduled to become effective June 10, 2022.

Cobalt satisfies the conditions enumerated in the FAA's June 24 letter for obtaining relief from the interim reporting deadline. Cobalt is a member of the NBAA that is certificated under Part 119 and operates pursuant to Part 135 of the Federal Aviation Regulations. Furthermore, Cobalt's Operations Specifications were revised in 2016 to include Op. Spec. A025 for electronic training records (*see* HQ Revision 030). Granting Exemption No. 19176 to Cobalt is in the public interest and will ensure that Cobalt has sufficient time to staff its reporting effort appropriately and equip itself to provide the most accurate and timely information to the PRD.

Cobalt affirms that it will comply with the requirement that records created between June 10, 2022 and January 10, 2023 be reported to the PRD no later than June 12, 2023, and that any request for an extension of the exemption period shall comply with 14 CFR § 11.81 and be submitted no later than 120 days prior to June 12, 2023.

Sincerely,

Gary M. Arber
Vice President and General Counsel
